

Jewel

Geslacht: Mare
Geboortedatum: 2014
Schofthoogte:
Niveau:
Stamboek: KWPN
Kleur: Bay
Fokker: W. Vissers – Gemert

There is always lots of interest for Tres Biens offspring. This was no different with Jewel. Not surprising when we have a better look at her pedigree. One of the strong parts of her pedigree is definitely her grand dam Gera VII (by Leonid). No less than two of her four offspring jump internationally at 1.60m-level.
Catwalk(by Caretino) who was born in ’97, was successful at 1.60m-level under Christian Ahlmann (GER).

Holstein bloodline 18B1 has a splendid reputation of strong dam-lines for a reason. Cordelia, the granddam of Tres Bien, produced the stallion t Quality(by Quinar) that was approved by no less than four studbooks and jumped at 1.50m-level.

Sire Kannan (by Voltaire) has the number 1 position in the WBFSH Show Jumping Sire Ranking. His pedigree is a concatenation of Dutch top sires; Voltaire, Nimmerdorand Le Mexico.
