

# Melodie VIII

Geslacht: Mare
Geboortedatum: 1997
Schofthoogte: 1.69m
Niveau:
Stamboek: Holstein
Kleur: Grey
Fokker: W.Reimer, Wellinghusen

This grey mare is the dam of the Mecklenburg-Vorpommern, Hannover- and Oldenburg approved jumping stallion Levisonn (by Levisto Z). Melodie VIII gave birth to her talented son in 2005. During the 70-day-test he beat his fellow stallions with a twenty index point difference. He won both the dressage (139.57 points) and the jumping criteria (130.19). This is very rare. He is now competing at 1.30m-level with Gerd Sosath's daughter Janne.

Melodie VIII comes from the prestigious Holstein dam-line 776. The stallion Lordanos (by Landos) also comes from this dam-line. It guarantees sport horses that are willing to work. In 2013, the magazine 'Sport Horse Breeding' presented a list with the world's most successful dam-lines. Dam-line 776 was the leader of this list.

Narwan, Melodie VIII's dam, produced no less than 10 offspring including the Oldenburg and Holstein approved stallion Rouletto (by Romino) and the 1.40m-level jumper Carwan (v. Caletto I).
