This KWPN-approved daughter of Oberon du Moulin is out of the Contender dam Orchidee. As a result, Zilverfee is a full-sister of the approved stallion Original VDL (by Oberon du Moulin) and half-sister of the Oldenburg-approved stallion Quite Magic (by Quidam de Revel) (Studbook name Valuta). The mare Orchidee also produced the 2010 NMK-champion Chinchidee (by Chin Chin) and the nationally-jumping Twister (by Emilion).

The stallion, Oberon du Moulin, is well-known from the 1.60m horse Carnute and the other 18 1.50m/1.60m horses that he has produced. Laudanum is the sire of Oberon du Moulin who has founded his own stallion-line in France.

Zilverfee gave birth to the talented grey stallion Eclips DN (by Campbell VDL) that in 2012 made it to the second round during the KWPN Stallion Show in 's-Hertogenbosch.

Her daughter Hurricane (by Toulon), that was born in 2012, was sold via the Maren-Kesel foal auction.
