Kapo du Moulin is a beautiful colt, he has an extraordinary appearance. His mother [Zilverfee](#) comes from the [Contender](#) mother [Orchidee](#). This makes Zilverfee the full sister of the approved stallion [Original VDL \(by Oberon du Moulin\)](#) and halfsister of the Oldenburg approved stallion [Quite Magic \(by Quidam de Revel\)](#) (pedigree name Valuta). Zilverfee recently produced the talented gray stallion [Eclips DN \(by Campbell VDL\)](#) who came until the second round during the KWPN stallion show in 's-Hertogenbosch.

[Modesto](#), Kapo du Moulin's father, is the son of [Grandeur](#). The stallion Grandeur jumped on Grand Prix level. On the mother's side we find the strong Sina line. This line inherits jumping talent and is a big producer of international jumping horses. Modesto had an impressive career as a jumping horse. The stallion jumped on the highest international level and was a steady factor in the French jumping team.
