Pandora is an accumulation of sport genes. Sire Coronado I jumped successfully at 1.50m-level. He is one of the best breeding stallions by Corrado I and produced, amongst others, the jumpers Bronson with Thomas Jensen (DEN), S.F. Udine with Jennifer Crooks (IRL) and Libelle with Angelique Hoorn (NED). Pandora's dam Narwan is also the mother of Oldenburg and Hannover approved stallion Rouletto (by Romino).

Pandora's most famous offspring is, without a doubt, the 2012 Holstein champion of the four-year-olds: Cascor (by Casall). Zangersheide also approved Cascor. His sire gave him all the right genes. Casall is seen as the new foundation stallion of the Holsteiner Verband. Under Rolf-Göran Bengtsson he is one of the best jumpers of his generation. Cascor received a 9.33 for this jumping ability during his 70-day-test. Simultaneously, his offspring make him a very beloved stud stallion.
