Geslacht: Gelding
Geboortedatum: 2011
Schofthoogte: 1.65m
Niveau:
Stamboek: AES
Kleur: Bay
Fokker: W. Vissers, Gemert

Quintan is a descendant of the Holstein dam-line 579. A dam-line that guarantees top-quality show jumpers. Dam-line 579 produced, amongst others, the stallions [Cagancho](#) (by [Calido I](#)), [Cassini Royal](#) (by [Cassini I](#)) and the 1.50m-level jumping stallion Contiago with Lars Nieberg.

Tiffany XIII's great-granddam [Varan](#) (by [Cabinett I](#)), is also the granddam of [Laganscho](#) (by [Lennon](#)). This ZFDP-approved grey stallion jumped at Grand Prix level with the Syrian rider Wassim Anzarouti. This excellent jumper was not just a fluke. The genes are definitely passed on. This is shown by the fact that Varan is also the granddam of the Holstein stud stallion [Leonid's Jumper](#) (by [Leonid](#)).
