De mare Never Mind is a daughter of our breeding mare Tres Bien. This mare really lives up to her name when it comes to her pedigree. It is excellent. One of the strong parts of het pedigree is definately her dam Gera VII (by Leonid). No less than two of her four offspring jump at 1.60-level. Catwalk (by Caretino), that was born in ’97, was succesful at 1.60m-level under Christian Ahlmann (GER). Another half-brother of Tres Bien that jumps 1.60m fences easily is Caretello (by Caretino) ridden by Caroline Muller (GER).

Holsteiner stam 18B1 has a splendid reputation of strong damlines for a reason. Cordelia, the grand dam of Tres Bien, gave the stallion Quality (by Quinar) that was approved by no less than four studbooks and jumped at 1.50m-level.

The stallion Kannan is the sire of Never Mind. Under Michel Hecart, Kannan had a successful sports career. The combination took part in the European Championships in San Patrigano and won the Grand Prix of Deauville. They were also part of the French team that won Nation Cups in La Baule and Lisbon. Kannan has made an even bigger name for himself in European breeding as a sire.
